
Konftel 300 solutions

The Konftel 300 is a plug-and-play conference phone but with the addition of external equipment it can be used in very large applications also. In the illustrations below we demonstrate some solutions as to how the Konftel 300 can be a component of your communications system.

CONNECTIVITY

The Konftel 300 can be connected in three different ways, analogue, USB for VoIP and mobile. The Line mode selector helps you to easily switch and combine the different connectivities.
